

## Virtual Emergency Card Information Update!

**EMERGENCY CARDS** | This year, we will be utilizing virtual emergency cards. Please take a moment to make sure your student's information is up-to-date by logging into the Parent Portal and completing the card electronically.

This information is going to be used for regular and emergency contacts during the school year. If you have more than one student, please make sure you update the information for each student and that it matches. The names listed will be the only adults we'll release your student to, after we have verified photo ID. Additionally, if your student qualifies for a bus, all bus stops and routes will be populated electronically this year so please make sure your information is accurate.
